WITH OUR BOYS IN SERVICE

Pfc. August Esola has been awarded the Bronze Star Medal for meritorious performance under fire during the bloody battle of Hill 260, according to official word from his infantry division somewhere in the southwest Pacific. As an assistant gunner for one of the light machine gun squads, Pfc. Esola moved into position with his squad under heavy enemy fire. With disregard to his own safety, he carried ammunition and fired the gun in an open position until he was wounded in battle by a Japanese knee mortar. A veteran of 12 months overseas, Augie, as a member of the division has seen active service in New Caledonia, Fiji Islands and at Bougainville. His father is Albert Esola of Truckee.

Augie's company is commanded by Captain David J. O'Rourke of Fond-Du-Lac, Wis., who has been awarded the distinguished service cross for his leadership in the operations. Hill 260 was the second major victory for the Americal Division, which also aided in the destruction of the japs on Guadalcanal.

Ernest Guidotti has recovered from his wounds received in battle and returned to duty. Linen gifts for the members of his family are expected to arrive shortly from Italy.

EM. 2/c Lyle Smith came up on a short leave from his base at San Diego to enjoy the first few days of deer season. Lyle is with a ship repair crew in the south.

John Rau, now a corporal in the Railroad engineers, writes to his old friend Everett Parker to let us all know that he is now in France and in the best of health, busy and that he is not sold on the country. Johnny was landed in England but has been on active duty in France for some time. You fellows all remember John; he worked for the S.P. here before enlisting.

From Italy come word that Ralph Bretthauer, one-time expert mixologist at Tony's, is taking a six weeks rest in an Italian restcamp after machine-gunning the huns out of southern Italy.

Sea-Bee Electrician Daryl Gaiennie writes that he is still holding down a big job on one of the South Pacific islands but is anxiously awaiting a leave so that he can return home for a breather.

Kenneth Carson, now with the army in Australia, writes home to advise that he has taken unto himself an Australian bride.

Sea-Bee Bill Preston, who has been with the engineers in the Aleutians, has arrived in the United States and has been visiting his mother at San Rafael. He is expected to arrive here today or tomorrow to visit local friends.

These Truckee boys have a way of getting together wherever they are and whatever they are doing. Kenny Foster, who is on one of Uncle Sam's big battle ships, and Roy Waters who is with a hospital unit now located in North Africa, got together a while back and spent an evening together We can well imagine that Truckee comprised the chief topic of conversation. Both boys have been in active service, Kenny in the invasion of Normandy and Roy in Africa and Italy.

THE HIGH SIERRA
By Jack Thornton —,45

I've seen a land of great wonder,
Where the crimson mountains touch the sky,
Where the heavens losen thunder,
As storm clouds go drifting by.
The dense woods and dark are luring,
Its rocky canyons deep and long,
The cold nights are self-assuring,
And there is magic in the dawn.
It's the place I've always longed for
To have freedom all my own;
A place I'm going to fight for,
And some day make my home.

With Sister—

Mrs. Ethel Shellhorn of Stockton spent three days here with her sister, Mrs. George Waters and family.

TWO ROBBERIES IN TOWN REPORTED DURING PAST WEEK

Two robberies which occurred last Saturday night were being investigated this week by Constable N. F. Dolley.

The Goodfellows Cafe, owned and operated by Mr. and Mrs. Joe Zorich was broken into and robbed of $60 after the restaurant closed Saturday night, Dolley reported.

The thief entered through a rear window after tearing off the screen and forcing the window. The $60 had been secreted by the owners before they closed the cafe Saturday night, and the fact that the robber knew exactly where the money was hidden as well as the most accessible place and time to enter the building led to the belief that the theft was the work of someone familiar with the place.

Man is Held

Bob Spencer, 20, an Indian was being held in the city jail charged with entering and pilfering the home of Mike Bimbo on River Street Saturday evening. Bimbo went to the house and reported to Dolley that he discovered Spencer, a local construction company employe in the place. He forcefully held the young man until the officer arrived.

My Place In The Sun

By CPL. DOUG BARRETT

Excerpts from letters from the Canada theater of war operations

From the radio downstairs I just heard the familiar tones of the Richfield Reporter's trumpet and about half the broadcast before static interfered. It's little things like that really take you back.

The darnedest thing happened today. There's a T/Sgt. in our organization who is sort of a technical inspector. I've known him for almost as long as I've been in the north, but today I just found out that he is (a) from Sacramento and (b) attended Sac J. C. with me. Furthermore his wife, who is in Edmonton with him now, is also from Sacramento and was at Jaysee at the same time. We had a lot of friends in common but just never seemed to meet one another. He was a music major and she was an English major. His name is Kenneth Templeman and her name was Jody Mullen. At any rate we went to dinner at the Terminal Cafe tonight and talked all about school, Sacramento, Woodland, until it was time for me to get back to work. Just goes to show you that for all the mililons in this man's army, it's still not such a big place after all.

Last night we, Barbara and I, went to dinner at Donald's—a hotel cafe here in G. P.—then to a show and afterward to the Canadian Legion Canteen. That just about constitutes the social whirl here. We caught Henry Fonda in "The Immortal Sergeant" at the movies. To put it mildly, it was dull. Although there was some action, you had to look twice to see it but you could see it then because it didn't move fast enough to get away from you.

Hunters Continue To Enjoy Good Luck In District

Weather Remains Excellent For Scores of Hunters In This Region

Although deer hunting has slacked down as compared with the first few days, there are still scores of hunters frequenting the surrounding hills and many deer are being killed.

The weather remains ideal for the hunter but because of the dryness of the forest, dangers of fire are still acute.

The largest buck yet recorded in this region was killed last week by Sharkey Foster of Truckee who bagged a 325 mule tail on Castle Peak. The deer, prior to dressing, was weighed in at the Big Bend Ranger Station.

Glenn Trimble, school trustee at Roseville, his son, Danny, Marion T. McCallen and son, Bud McCallen and Silas Claiborne, Jr., who were up last week killed eight fine bucks, the largest being 202 pounds dressed.

Samuel M. Coppin also of Roseville killed a buck near Truckee. Many of the local hunters have had excellent luck and many have already killed limits.

The season here closes Friday, October 15.

Dick Hoskins of Grass Valley and widely known here, while hunting in the Sierra Buttes country, following a deer trail, came across a Vallejo hunter who had been lost for 40 hours. Needless to say, Hoskins was the most welcome sight the man had seen on his trip. Mrs. Hoskins accompanied her husband on the trip and brought down a four-pointer but Dick failed in two times up and his batting average at the end of the trip was no hits, no runs, no errors but one assist.

The meat may be canned or frozen but cannot be dried, according to LaMarr who said he would stamp the deer meat for anyone desiring to hold it beyound October 31.

If one doesn't take politics too seriously, you can get a lot of fun out of the pros and cons and candidates vie with each other for public jobs. Take for instance the importance some of us are placing on the president being commander and chief. We would be led to believe that that is the principal duty of our highest executive and yet no one even mentioned the fact that Hoover, Coolidge Harding and many more presidents each in his turn was also commander-in chief of our armed forces. That is only one of the amusing things we hear these days.

When we caution you not to take politics too seriously, we do not mean that you shouldn't give careful and sound thoughts to the men and issues to e voted upon November 7. Never we suppose, in the history of the United States, has such an important election confronted the people and the nation's future may well be formed by the will of the majority next November 7. So whatever you do be prepared to vote and vote. Don't neglect this important issue in 1944. To vote you must be registered and today is the final day for that privilege.

We are still concerned about what is being done locally about submitting post-war plans for legislative consideration. So far not a single local agency has made known their plans. Maybe they haven't any, but we can think of a dozen very necessary ones right off hand.

DEER HUNTING STILL SHORT OF HOPES IN TAHOE AREA

For PEACE on the HOME FRONT

VOTE NO! on proposition No. 12

Governor Earl Warren, the State Chamber of Commerce, civic leaders and a score of employer, employee, civic, veteran and church groups have come forward to oppose No. 12 on the ballot in the election, November 7th. These leaders look upon No. 12 as a threat to industrial peace in California and as a dangerous attack on our united efforts to win the war.

If written into the constitution, this committee is convinced that this proposal entitled "The Right of Employment" would prove a powder keg. It would bring chaos, confusion, and industrial warfare. It would destroy peace on the home front.

Ostensibly designed to crush trade unions, No. 12 goes far afield. It threatens the present good will existing between labor and industry. It comes as an un-American attack on war production. California has plenty of wartime and post war problems. Why start a civil war on the home front?

TAHOE LETTER

To the Service Men

From SWANEE

Tahoe City, Calif.
September 24

Dear Tahoeites:

Another gloriosuly beautiful day and time for another chat with you all. Last week sometime Autumn arrived. Here and there the leaves are beginning to turn yellow and I am keeping my fingers crossed hoping for one of Tahoe's extra lovely late seasons when the reds and yellows reach their fulest beauty, my favorite time of the year. Sometimes heavy rains followed by frosts ruin the foliage and like spring, the lake region does not always develop its peak of loveliness due to weather conditions. Despite the present sunny weather, Tahoe last week had a generous down pour of rain which brought .26 of an inch precipitation, accompanied by snowfall on the higher mountains of both California and Nevada. Hunters who frequented the high spots Wednesday morning tracked their bucks with greater ease but in winter weath er.

Another reminder to you hunters who do not have specific use for wour deer hides— The American Legion will welcome your hides for the making of garments for the service men stationed in cold climates. The Truckee Post and the Boy Scouts are collecting hides in this region.

The Floyd Carnell family is breathing easier once more since hearing from their son ,Dick at Camp Gruber, Oklahoma. Usually a prompt correspondent, he had not been heard from for two weeks. His latest letter indicates he has acquired a very bad cold which is getting better and has been extra busy on some new, very interesting work which has kept him and his buddies out much later. Maneucers, we suspect.

The N. R. Mayfields have recent word from their nephew, Douglas Smith, who has really had a rugged time since entering Uncle Sam's Marines. Meningitis, measles and mumps have plagued him, his first illness coming just two weeks before he would have finished boot training which he was actually enjoying. After receiving the highest marks in his platoon he was looking forward to an interesting future when sickness intervened. Now he is again confined to bed fololwing an attempt to resume his boot training and has lost 15 pounds in about two weeks. Doctors have recommended a medical discharge, but perhaps his record is prompting the authorities to attempt to convert him into an instructor. We are all wishing you a speedy and complete recovery, Doug, whichever way things go.

Mrs. Helga Olander of Forest Inn and her family are greatly relieved since receiving a letter last week from her son, S.-Sgt. Phillip Olander who informed them that he was a military prisoner of war in a German concentration camp. The last time his family heard from him was three months ago when his plane was shot down over enemy territory. He was first engineer on a bomber. He declared that soon after landing his parachute he was taken captive and aside from suffering from the effects of shock he was uninjured. Said he well and prayed the war would soon be over so he could eturn home.

Pvt. Eric Druhn has once more been heard from, having arrived at a new post. He is most enthusiatic about his assignment to an electrical crew, having now 12 men under him and being in charge of electrical equipment and generators. Recently he wrote his wife, Mrs. Lee Druhn of Sunnyside that he was fortunate in being able to shake hands with Bob Hope and his troupe who staged a rib-tickling show for the boys on his island. Being late in arriving, Eric made good use of his pole climbing equipment and took himself a box seat in a tree just above the stage.

Really fetl badly today when Constable Harry Johanson of Tahoe called to tell me he had finally caught and arrested the person allegedly responsoble for numeous housebreakings and robberies in the area on the north end of the lake. Seems that recently the home of Fred Nob, foreman of the Empire Mines at Grass Valley, which is built partly over the lake not far from the gravel quarry, was broken into and a quantity of canned goods and household articles beside a boat with a motor were stolen. For some weeks Johanson followed clues and gathered evidence and on Sunday night caught the suspect with the incriminating evidence in his possession. But he claimed the goods were given him and so was taken to Auburn for questioning. He there broke down, the officers said and admitted his guilt. The thing that makes me feel so badly is that the boy, who shall go unnamed in the Service Letter, is a returned service man, who spent two long years in the service of his country in the Aleutians.

Just this instant received an anticipated letter from Pfc. Rodney Yeakle who writes from his new base at Drew Field, Florida. And just between us, in spite of the beautiful and much flaunted Florida sunshine, Rod is one mightly homesick lad way down underneath. Says the chamber of commerce wouldn't appreciate his comparison of Tahoe and his present site which can't compare with his favorite Sierra playground. Says he enjoys my usual summary of our lake region in the Service Letter and hopes I continue for the duration. He recently varied the stern military discipline by a most memorable trip to Dayton where a certain "little lady" from North Carolina, who works at Wright Field, aided greatly in helping him forget his long working hours and flying machines.

Service news—or any news for that matter—is scarce this week and the Sun has taken on its winter quota of space so will ring off fir this time wishing you all the best of good health and good cheer and the best luck in the world from your homefolks. May God be with you always.

As ever,
SWANEE
